### Intracom Telecom Launches its OmniBAS-XR Full Packet Outdoor Product

**Athens, Greece – 03 November 2011** - Intracom Telecom, a part of SITRONICS, announced today the launch of its advanced Packet Full Outdoor Microwave solution, **OmniBAS-XR**, re-affirming its strategic focus on maintaining a leading role in the wireless transmission market. The company will feature its newest product at its booth number E17 at the AfricaCom Congress, 9-10 November 2011 in Cape Town.

**OmniBAS-XR**, the latest addition to the OmniBAS packet MW point-to-point product family, is a state-of-the-art full outdoor IP MW solution intended for zero foot-print backhaul and access applications, offering outstanding performance and unique deployment flexibility. It delivers market leading radio performance, IP capacity and advanced traffic handling and control functionality in 1+0 / 1+1 / 2+0 configurations. **OmniBAS-XR** operates at frequencies of 7-38GHz, enabling 400Mbps radio capacity over a single link, with hitless Adaptive Modulation up to 256QAM. **OmniBAS-XR** offers full carrier-class Ethernet functionality, Quality of Service, Operation Administration and Maintenance (OAM) and Synchronization.

*"OmniBAS-XR ideally addresses the last mile - high capacity - full outdoor deployment requirement of emerging LTE networks. This innovative MW solution complements the OmniBAS-2W and 4W split-mount options, further enhancing the operators' toolbox for the optimal Greenfield transport network design or existing network upgrade"* stated Mr. Christos Xynogalas, Marketing Head of the Wireless Network & Systems Business Division of Intracom Telecom.

*"OmniBAS-XR, apart from meeting the requirements of 4G all outdoor small cell Backhauling, can also be used for reliable Corporate IP connectivity and Utility Networking at any time and place, even in the most challenging environments,"* commented Mr. Faissal Damaj, Sales Director Europe & Africa of Intracom Telecom.
